„Experts don't trust  
their skills alone, but  
also their accessories“

**PROFI**

# A professional tool shall serve the user

Experts do not trust their skills alone, but also their accessories! That is why we have put together an excellent selection of high-quality knives and other products for you here, which will make your work much easier when preparing your food.

The design of the Profi knife series is reminiscent of the classic shapes of the Solingen cutlery tradition, not least because of the attractive-looking rivets.

These are consistently forged Solingen top knives with ergonomic, comfortable handles made of POM. The well-crafted bolster prevents your fingers from slipping on the blade. The stainless steel of these knives is a highly alloyed stainless chrome-molybdenum-vanadium steel. Thanks to the original Solingen manufacturing tradition, including ice-hardening, laser-checked cutting geometry and the world-famous Solingen special grind, our cutlery guarantees long-lasting sharpness and excellent cutting experiences.

# High quality handles made of POM plastic

Breakfast set  
Art.-Nr.: 80192003

Boning knife 4½" – 12 cm
